

Boost your productivity

Microsoft 365

**Work smarter
& be up-to-date**

Microsoft

Today, technology solutions are changing the way businesses operate. With the increasing risks of cyberattacks on computer systems and data, cloud services are a sure way to secure and backup your data.

Enjoy the full of Microsoft Cloud experience with Microsoft 365

Microsoft 365 is a suite of cloud services available on all devices
– smartphone, tablet, laptop and PC/MAC.

Work smarter, work together

Best storage, easy access anywhere

Anna D., Lawyer

Data collection, management and integrity are essential for my business. Storing hardcopy of files or retrieving them was a tedious task. Now I have an unparalleled solution with 1TB of cloud storage on OneDrive.

Get worry-free email with anti-malware protection and anti-spam filtering.

Drag & upload app

Offline access to files

Up to 50GB for mail box

I now use email smartly

Rita B., Retailer

Office 365 is much more than receiving and sending emails. My company-branded email looks more professional and trustworthy to suppliers and clients. Data privacy & securities are also an essential feature, with always up to date spam & virus protection on all my emails.

Focus on security with up-to-date spam protection.

Keep up-to-date and use digital tool

Always connected

James G., Contractor

My staff is getting the best and latest Office applications online and offline. It is more profitable for my business than buying expensive Office licences.

Full & latest versions of Office

One licence per user with 15 devices

Working together is now much easier

Nawaz M., Manager

As a manager, I am always in touch with my outdoors sales team, who is constantly on the road, and stay available through 'Skype for Business'. It is a practical and a less costly solution for interacting with both my team and customers locally and also from abroad.

HD video & audio calls

Instant messaging/chat/video conferencing

Messages/file transfers/video/voice are encrypted
